Wish I could stop these tears I wish I didn't care wish I
didn't love you anymore
Wish I could be set free from all your memories wish I
didn't love you anymore
But if wishing really made it so I'd have the different
wish I know
I'd wish you still love me just like you did before
But that wish can't come true so all that I can do is wish
I didn't love you anymore
Wish I could just forget that we had ever met wish I
didn't love you anymore
How I wish I didn't love you anymore
