Would You Hold It Against Me

Would you hold it against me
If i just see him one more time
Just so i can make certain
I can leave him behind.

Would it make any difference
If i just hold him once again
Now you know that i love you
But have i forgotten him.

He was my love
Tell you came my way
Now i can't help but wonder
Have i made a mistake.

Just suppose i remember
The things he used to say
After our wedding day.

Would you hold it against me
If i just see him once again
Then i'll know that i love you
And that i've forgotten him

For he was my love
Till you came my way
Now i can't help but wonder
have i made a mistake...
