

## Double Exposure "Ten Percent"

Visit "[Ten Percent](#)" on MotoLyrics.com

Ten percent of something  
(Ten percent of that something)  
Ten percent of something  
It beats one hundred percent  
Of nothing at all

I only see you  
Maybe once or twice a week  
(Once or twice a week)  
You make it worth my while  
You treat me like a king  
(Treat me like a king)

I cherish any time  
That I can spend with you  
Just say the words  
And I'll do anything  
But you must be true, oh

Ten percent of something  
(Ten percent of that something, baby)  
Ten percent of something  
It beats one hundred percent  
Of nothing at all

Ten percent of something  
(Ten percent of that something, baby)  
Ten percent of something  
It beats one hundred percent  
(Oh, oh, baby) of nothing at all

I do not like those guys  
Who try to get all they can  
(To get all they can)  
Cause when it's over  
They're right back where they began  
(Back where they began)

It's better to have loved  
Than never to have loved at all  
(To have loved at all)  
I'm with you til the water runs uphill

Ten percent of something  
(Ten percent of that something, baby)  
Ten percent of something  
It beats one hundred percent  
Of nothing at all

Ten percent of something  
(Ten percent of that something)  
Ten percent of something  
(Is better than nothing)

Ten percent of something  
Ten percent of something  
(Than nothing at all)

Ten percent of something  
(Now you only see me, baby)  
Ten percent of something  
(Maybe once or twice a week)

Ten percent of something  
(But you treat me, treat me, treat me)  
Ten percent of something  
(Just like a dog instead of a king)

Ten percent of something (oh, baby)  
Ten percent of something (oh, girl)

Just say the word  
I'm not like those guys, love  
I try, try, try, try all I can, girl

I'm gonna be with you  
Be with you til the water runs up hill  
Yes, I will, yes, I will, baby

Said I'll cherish, I'll cherish  
I swear, my darling  
And I'll try my best  
To do the best, girl

I need not one  
Not two, not three, baby  
I need ten percent, ooh...
