I show the scars  
Of every fear and doubt  
I hurt myself  
To let the darkness out...  
Out  
The days go bye  
And nothing brings me joy...

The glow was strong  
When I was a boy  
But it's gone

And the glow  
It goes  
So slow  
It goes  
Cracks appear

And passion slips away  
Colors fade

And turn to shades of grey  
Fade away

And the glow...  
It goes  
So slow  
It goes

If you knew the man I used to be  
Please hold me under the sea  
Or scratch my arms till they bleed  
Save me  
Will you help me to feel the glow?  
The glow?

The glow?  
It goes  
So slow  
It goes
