

Blackfield **"Open Mind"**

Visit "[Open Mind](#)" on MotoLyrics.com

here's a song from an open mind
i give it to you because i can
it cause my mood swings
and if you're thinking that it's not that kind
make me feel ashamed
it can pass the time

a girl with eyes that see a hundred years
spinning out from where the hole appears
but i've got photographs
half remembered, this is my dream
i've never seen her
it can blow your mind
an idea falls from a porcelain sky
it won't make you rich

and it won't get you high
out of the void it comes
(out of the)
(out of the)
from an open mind
it comes from my mind out of the void it comes
