So far away  
We lost the way  
There's no oxygen left on our planet

Empty words  
Break on our lips  
There's no oxygen left On our planet

Everyone, sleeping with their guns  
Someone's going to die  
So much noise  
We're a bunch of boys  
We were born to lie

I feel alive  
Just when I cry  
There's no oxygen left on our planet

Things we've said  
And then we crashed  
There's no oxygen left on our planet

Everyone, sleeping with their guns  
Someone's going to die  
So much noise  
We're a bunch of boys  
We were born to lie

Everyone, sleeping with their guns  
Someone's going to die  
So much noise  
We're a bunch of boys  
We were born to lie

So far away  
We lost the way  
There's no oxygen left on our planet
