"Prove Them Wrong"

Visit "[Prove Them Wrong](#)" on MotoLyrics.com

So many years of misinformation propaganda, lies,
Manipulation they've played us like fools
For too long now it's time to prove them wrong

A motto, a mascot there's no respect the bottom line
It's ignorance you push me, i push you we wont take
anymore
Of this abuse it's about time we spoke our minds
You can't justify genocide genocide!

So many years of misinformation propaganda, lies,
Manipulation they've played us like fools
For too long now it's time to prove them wrong

Relocation, assimilation we need to unite against them
They take our culture, they take our land
Now it's time to take a stand
They stereotype, generalize ive had enough
Its time to fight it's time to fight!

So many years of misinformation propaganda, lies,
Manipulation they've played us like fools
For too long now it's time to prove them wrong

A motto, a mascot there's no respect the bottom line
It's ignorance you push me, i push you we wont take
anymore
Of this abuse it's about time we spoke our minds
You can't justify genocide genocide!

So many years of misinformation propaganda, lies,
Manipulation they've played us like fools
For too long now it's time to prove them wrong
