We all need love

I swear it's true all that children me and you

I swear it's true all that children me and you

We all need love

I was just alone and mad with my suitcase in my hand
part of a travelling band on the road (well we are
knowing ..)

and a motorgirl ladylike till regret it oh

We all need love I swear it's true

all that children me and you

We all need love I swear it's true

all that children me and you

By my brother jump your head

sister stand up stand by your man

a lover know that you understand

you really need him (I really needed you yes I do)

And sun will shine on you if your love still billow of you

I love some pressure get my back

don't crave feel away now oh

We all need love I swear it's true

all that children me and you

We all need love I swear it's true

all that children me and you

There's a way that thing enlight to meet you

in another round so you better not waste it

there's no crumple cause in life are you

so reach out (reach out) take a little

love I swear it's true

all that children me and you

We all need love I swear it's true

all that children me and you

We all need love I swear it's true

all that children me and you

We all need love I swear it's true

all that children me and you
