I sure do love what you've done to your hair
And that's the kind of clothes I always thought you
ought to wear
I didn't know you knew how to chug-a-lug a drink
Is it just wishful thinking or did you lose a ring?

[Chorus]

Have you left
Are you leaving
Are you going or gone
Are you serving him right
Cause he's been doing you wrong
Are you writing him off this time
or just putting me off
Have you left
Are you leaving
Are you going or gone

Whew!

Well I always dreamed that we would dance like this
And I would walk through fire
To teach those burnin' lips
And I'd give the farm and my right arm to be with you
alone
Where'd you'd be going all the way and you'd just be
going home

[Chorus]

I don't want you heart breakin' over my mistake
Tell me that it's real and not temporary

[Chorus]

Have you left
Are you leaving
Are you going or gone
