Well I'm chained without you baby.  
Well I'm chained both night and day  
I thought our love was going to last  
But now I'm locked in the past and you got the key

You put some kind of spell on me  
And now these chains won't set me free  
You got me shackeled like a dog in a cage  
Can't say a word, no, I'm just to full of rage  
It feels like lightning hitting a tree  
And now your love is chained to me  
And you got the key

I'm a link in your long long chain  
You're the queen and your going to reign  
You've wrapped that chain around so many men  
I lost count around nine or ten  
Cut loose the chain oh baby please  
You got me beggin on my knees  
Oh baby please, please, please  
You got me locked up now

Well some day I'm going to break away  
You'll be sorry girl, I'll make you pay  
For hurting me and all those other guys  
But I'll get better and I'll get wise  
Until then I'm just you slave  
Trapped up inside this jail this cave  
And I'll be brave. brave, brave  
Cause I'm chained...
