"Suicide Heart"

Visit "[Suicide Heart](#)" on MotoLyrics.com

Driving along in my car at night
Silence fills the air and I hear
"I got this suicide heart"
So I turn up my car radio
I'm sitting here and your sitting there
And I hear the singer say
"I got this suicide heart".
Well baby, I haven't heard you say
You love me in a long time
And baby I haven't heard you say
"all I wanted was you to love me tonight"
I remember when you use to say
"all I wanted was you to love me tonight"
I got to feel your arms around me
"all I wanted was you to love me tonight"
I haven't heard you say this words in a long time
"all I wanted was you to love me tonight"

I stare out at the road up ahead
Thinking to myself and I keep hearin this song
"I got this suicide heart"
And the song on the radio keeps on playing
I can't make out the words he's saying sounds like
"I got this suicide heart"
Well baby, I haven't heard you say
You love me in a long time
And baby I haven't heard you say
"all I wanted was you to love me tonight"
I remember when you use to say
"all I wanted was you to love me tonight"
