Time is flying by time is flying by
Oh oh oh I'm in love and time is flying by
I think back to the time I was alone
I had knowbody and I was on my own
Time crawled by so slow my heart got so low
I found true love and now I know.
Time is flying by time is flying by
Oh oh oh I'm in love and time is flying by

I use to wish the day, oh, would end
I looked around and I couldn't find a friend
It really frees my mind to find a girl so fine
I love it when you say your mine
Time is flying by time is flying by
Oh oh oh I'm in love and time is flying by
Time is flying by time is flying by
Oh oh oh I'm in love and time is flying by
