Lock up your daughters  
It's emotional slaughter  
One thing leads to another  
Listen to your mother  
Don't go out with him he's a lady killer  
You can help falling in love with a man  
He'll steal your heart as fast as he can  
You think this feeling is love  
But your caught one minute your free  
And the next your not  
Run and hide your love

What can I say troubles on the way  
Will you listen to reason?  
Maybe it's the season but I doubt it  
Your heart's beating faster  
You can help falling in love with a man  
He'll steal your heart as fast as he can  
You think this feeling is love  
But your caught one minute your free  
And the next your not  
Run and hide your love
