"When We Were Young"

Visit "[When We Were Young](#)" on MotoLyrics.com

When we were young we could do most anything
Oh we were free flying high on angels wings
Running down the alley ways not afraid of anyone
Like a pack of hungry wolves out on another run
When we were young ya when we were young.

I can see her standing in the yard across the street
She was the best one of them all ya oh so sweet
I asked her if she'd ever leave and she said "never"
I believed her when she said we would last forever.
When we were young ya when we were young.
