In death I find affection
Parasitic abomination

Gnashing - gluttonous- appalling

Vermicular, obscene, obese

Horridly detrimental, a sordid and foul obsession
Necrotic fixation of what's ignominiously mine

Vermicular, obscene, obese

A delicatessen for me to gorge
Your exsanguinated stump is my fillet pur

Nutritiously infernal, a banquet of tepid flavors
Necrotic fixation of what's perversely mine

Gluttonous, appalling
The gargling pleasure of rotten brew
You are my savoir, my plat de jour
Eviscerate, debilitate, such pleasure
You rotting sack in my anal tract
The gargling pleasure of your rotten brew
The afterbirth no more than a nefarious fume

In death I find affection
Gnashing - gluttonous- appalling
Vermicular, obscene, obese
Crepitated bowels move in disgust
A mere victim of my carnal lust
