"When I Go Down on You"

We have confusion and we're weary from the words
But baby, please I know I'll get through
When I go down on you, when I go down on you
We'll be happy and free just as the birds

I don't need to have some money
And I don't need to have some friend
I don't need to have somebody new
When I go down on you, when I go down on you
With you all things I will transcend

As the universe explodes
And the world goes straight to hell
And some people try to split our love in two
I'll go down on you, I'll go down on you
No, there's nothing could ever break this spell

I don't need to know the answer
I don't need to save my soul
And I don't need to have a point of view
When I go down on you, when I go down on you
To be with you has been my only goal

If you wonder who will love you
And will have a tender touch
Then please allow for me to give a clue
I'll go down on you, I'll go down on you
There's nothing in this world I love as much
There's nothing in this world I love as much
