Across the sky  
And in the eyes of angels  
Under the night lights  
Protecting dreaming children  
Time after time  
We learn to live so empty  
Under the night lights  
We resurrect the feeling

Stay with me  
Till I leave you again  
I'm still in love  
Holding your hand  
I'm just a poor boy  
And you are my light  
Know I'm a better man  
When you're on my mind

So walk with me  
If you will take my hand  
We'll fall in love  
All over again  
I won't forget you  
Or even repent  
That was the day I found heaven again
