"No Pain"

I took a ride today
Across a crazy scene
To the edge of an empty street
No pain
Until I sit there and stare
At the shadows dancing sweet
Obscene
Pretend I don't care
I'd be dying in that place
No pain
Till they come back for me and remember I'm not free

If I could fly today
Away from the edge to the center
With all the rest
No pain
When the wind fades away
I'll be still enough to breathe
Obscene
Pretend I don't care I'd be
Dying in that place
No pain
Till they come back for me and
Remember that I'm in chains

Fly away my darling
Shine for me and wonder
Selfish lives are falling
Now we're going under
Precious times been wasted
Miss that peacefull feeling
Fly away my darling
Shine for me and wonder
