"Shine"

Some days it's harder to find you
Than days when you're on my mind
Love the way that you get in my head and
Love the way that you're under my skin and

Ah ha ha ha ha ha
Ah ha ha ha ha ha

Spent a long time stopping your crying
Found another life outside of mine
Hard to fly when you don't have the wind and
Hard to shine when the dark eats the light and

Ah ha ha ha ha ha
Ah ha ha ha ha ha

Today I think I'll leave you
Standing there alone
For days and days I wandered
But now I think I'm home
The anger and the sorrow
Seems to bring me home
This world has left you dry and
Lost without a soul

Had a dream or a vision I found you
Like the day that I first saw you cry
Need your light to return to my life and
Need to feel that you're under my skin and

Ah ha ha ha ha ha
Ah ha ha ha ha ha

Repeat 2nd verse and bridge
