"Sympathy"

Everybody needs my sympathy
Even when they're in the rain
East meets west and then she says
Could you please just stay a while
It's my lonely time of night
Laying sleepless in my life
A selfish wish is what you gave me
I blew my last wish over you

I'm so low and
Lost inside myself now
If you know me
Then we'll be ok
Unless we stop for a while

"Repeat all"

I wanna hear you sing my favorite song
I've been waiting for so long
I wanna hear you sing my favorite song
I've been waiting for so long
If you know me
Then we'll be ok
Unless we stop for a while
If you know me
Then we'll be ok
Unless we stop for a while
