[Verse 1 - Cyhi Da Prynce:]

I am bullet bullet bullet bullet bullet bulletproof
I done already get what they said I couldn't do
Look at me no look at you
I'm one nigga that you shouldn't shoot
Cause I've been running with them killers since was a
little nigga
With a gap in the crooked tooth
87 I'ma pull it too
Keep the pot slow cause like I'm cooking soup
Got a bunch of bitches that've been playing on my bone
Always saying I'm wrong cause I wouldn't screw
Oh well change my number
Take 'em to the...
I give women 5% and I think my last girl's name was
Summer
Oh my bad it was Autumn, hit the gat and then I dot 'em
Never call 'em...
All my enemies, I done fought 'em
All the Jays, I done bought 'em
Paid in full like them niggas who brand a slalom out in
Harlem
Cause I'm a hell of a writer, I think I deserve a column
That's why I'm the headliner and you herds are at the
bottom
I got me suckers scared, got these pussies playing
possum
This the first thing I said when I saw 'em

I heard you talking like you
We all got guns my niggas so ain't nobody
And we got enough... my niggas so think about it

[Verse 2 - Cyhi Da Prynce:]

You can talk about me all you want
That don't matter cause my self esteem is bulletproof
My shit won't shatter
I'ma find my way up to the top, I don't need no ladder
I already got these niggas pissed, I don't need no
bladder
Fuck the chatter and the jabber...

Niggas mad that the Prynce poppin' cause my pockets
fatter
Catchers hoppin' out of vans
Boy I stay in Abbadaba
Shawty I'm always out of town and it ain't cause I like to
travel
Niggas talkin' 'bout the booths and wearing in the
magazine
You can bathe in some bleach and you still will be half
as clean
Bitch I'm slick as vaseline, smoking gasolene...

[Verse 3 - Yelawolf:]

Somebody should have told me I was gonna be a
mother fucking problem
I never knew I'd be this hard to get, shit
I didn't get the memo, I should've took my demo to
Stephen Hawkings
Cause I'm weird science, appear to be violent
Tattoos like gat hooks, Yelawolf he's clearly defiant
