You're so stupid  
And your ego is so big  
Hey! I just don't need you anymore  
I've been watching you for so long baby!  
That I can't help hating your face

I just wanted you to be the one  
But I can't help hating you! I can't!  
I hate you

Every season that I wake up late  
I have this bad sensation that I'm dead  
If you help me one more time  
I swear that I will pay you back  
This time I will

I just wanted you to be the one  
But I can't help hating you! I can't I hate you!

So, are you sure you want to feel  
The power of my knee?  
Yes! so bad!  
So please!
