You better wash your hair
But today all my plans are staying in bed
No matter what they say
I'm all wrong
Told you this had happened before

You better stay the same
But today all I am is just starting to change
No matter what they say
I'm always wrong
Told you this had happened before

If you want to get there
Then move on
No one's gonna wait for you
So you better not stay long
No one's gonna wait for you
This is war!

You better wash your hair
But today all my plans are staying in bed
No matter what they say
I'm all wrong
Told you this had happened before

If you want to get there
Then move on
No one's gonna wait for you
So you better not stay long
No one's gonna wait for you
This is war!
