Can you feel my power?, yeah!
It won't bring you up
Can you feel my sister?, yeah!
I don't want her to be touched
I found the truth in someone's body
I felt their hands between my legs
But at least i got'em to say they're sorry
And that's just worth the pain

And now i want you to try!, yeah! yeah!

Did you see me running?
I won't bring you up
Did you see my brother?, yeah!
I don't want him to be touched
I found the truth in someone's body
I felt their hands between my legs
But at least i got'em to say they're sorry
And that's just worth the pain

And now i want you to try!, yeah! yeah!

I felt sick
And nobody told you
That's right!
You owe me a friend
Don't shoot!
That's not gonna save you
That's why...
I want you to try!
