You're so stupid
and your ego is so big
hey! I just don't need you anymore
I've been watching you for so long baby!
that I can't help hating your face

I just wanted you to be the one
but I can't help hating you! I can't!
I hate you

Every season that I wake up late
I have this bad sensation that I'm dead
if you help me one more time
I swear that I will pay you back
this time I will

I just wanted you to be the one
but I can't help hating you! I can't I hate you!

So, are you sure you want to feel
the power of my knee?
yes! so bad!
so please!
