The Hitter Lyrics

I was just a hitter
on the top of the mountain
no one told me the truth
they lift you to the top
and then they kick you to the bottom
you know how bad it feels

hey! this is who I am
don't forget about your rage

that was illegal
and nobody cares

I just had the beater

but the beater would leave me
no one told her the truth
they lift you to the top
and then they kick you to the bottom
you know how bad it feels

hey! this is who I am
don't forget about your rage

that was illegal
and nobody cares
that was illegal
and nobody cares
