Change my life...
Change my life...
Change my life...
Change my life...

Let's break the ice
Let's break it now baby
I wanna do this
Let's do this tonight
Something in you that gets to me baby
I wanna do this
Let's do this tonight

Let's spread the word
Let's spread it not baby (baby)
I wanna see this
Let's see this tonight (tonight)
Give me your word
Give it to me baby (baby)
I wanna see this
Let's see this tonight (tonight)
I gotta give you
Give you something
You know that it's gonna change your life
I gotta give you
Give you something
Something to remember me by

Let's break the ice
Let's break it now baby (baby)
I wanna do this
Let's do this tonight (tonight)
Something in you that gets to me baby (baby)
I wanna do this
Let's do this tonight (tonight)

I gotta give you
Give you something
You know that it's gonna change your life
I gotta give you
Give you something
Something to remember me by

I gotta give you
Give you something
You know that it's gonna change your life
I gotta give you
Give you something
Something to remember me by

(Tonight... tonight... tonight... tonight...)

I gotta give you
Give you something
You know that it's gonna change your life
I gotta give you
Give you something
Something to remember me by

(I gotta give you
Give you something
You know that it's gonna change your life
I gotta give you
Give you something
Something to remember me by)
