### VERSE

You may not like the way I voice my feelings  
But no one's telling you to listen  
Maybe I don't have to be so audible  
Cuz I don't always have the nicest things to say

### CHORUS

I'm just letting you know  
I'm free to my opinions  
I'll think what I wanna think  
You don't need to interfere  
I'm just letting you know  
I don't care what you say  
And I'm not blaming you for anything  
We all have our points of view  
Yours just isn't very clear

### BRIDGE

You  
Don't  
Know  
What you're talking about  
(repeat x3)
