Here comes the action
Here comes at last
Lord give me a reaction
Lord give me a chance

You should follow me down
In satellite towns there's no color and no sounds
I've been ten feet underground
I got to get out of this satellite town

Here comes some action
First time in my life
I gotta get up to get compensation
I gotta get up to get this to last

Whether you live alone
Or you're trying to find your way in this world
You better make sure
That you don't crack your head on that pavement
man

My God! The shock
It's been preying on me and mine
This is a dangerous place, man
This is a dangerous place, there's nothing here

You should follow your way down
In satellite towns there's no color and no sounds
I've been ten feet underground
In black and white town

You should follow me down
There's no color and no sounds
In the black and white town
I've been ten feet underground
In the black and white town
