I feel the push of the good
I feel the pull of the baad
I see the good in the misfits
I understood it's got my name on it

Always, are we?
Push me on

Feel it coming back at last
At parties Tina comes round fast
The speedy lover took your heart
Mystique will only get ya, will only get ya so far

Always, are we?
Push me on

I feel no gravity
Push me
Pushing me
Keeps pushing me on
Gravity
Push me on

Tie the mirror to your soul
Rejecting everything you know
You can't go back, the time has come
Turn the switch - turn that switch back on

Always, are we?
Pushes on

I feel no gravity
Push me
Pushing me
Keeps pushing me on
Gravity
Pulling me on

Pushing me
Keeps pushing me on
