

Doves "Some Cities"

Visit "[Some Cities](#)" on MotoLyrics.com

I think I might have met you before
I think it's time we settled a score
Buildings there they stretch so tall
Steel and brick no more, no more

Can't I make you see?

Too much history coming down
Another building brought to ground
Roads that come together, memory never severs
The love'll never sever for me

Can't I make you see?

Some cities crush
Some cities heal
Some cities laugh
While other cities steal

Can't I make you see?
Can't I make you see?

Can't I, can't I make you see?
Can't I make you see?

Some cities
Some cities crush
Some cities crush
Some cities
