Back, I'm back in town  
In which we're stuck, I couldn't get out  
And that old man will soon be us  
Now if we're too late, not if we can't escape

All of my time  
You were on my mind  
All of my thoughts  
You're so hard to find

And your shadow  
It lay across his life, hey

Time, a time in the past  
We couldn't care less, wanted to live fast  
And our old house, I can't find  
'Cause it ain't there, 'cause it ain't there, it's gone

All of my time  
You were on mind  
All of my love  
You're so hard to find

And your shadow  
It lay across my life, my life

And your shadow  
It lay across my life, my life

And your shadow  
It lay across my life

And your shadow  
It lay across my life
