

The Black Ghosts

"I Want Nothing"

Visit "[I Want Nothing](#)" on MotoLyrics.com

I want nothing but the love of the next stranger
Who walks through that door
And I want nothing but to dissolve in the night
And to feel direction no more

And I want nothing, no, I want nothing
No, I want nothing, no, I want nothing

And I want nothing but to follow you
'Til we can walk no more
And I want nothing but to cut away
Until I find the core

And I want nothing, no, I want nothing
No, I want nothing, no, I want nothing
No, I want nothing, no, I want nothing
No, I want nothing, no, I want nothing
