Until it comes again

It used to be, it was all I want, my only care
Nothing else had a single part to play in my head
But now times led my mind astray
Something was changed along the way
And no amount of tears can bring it back round
'Til it comes again

So maybe we should pretend we're who we want to be
And forget who we really are and where we really be
'Cause I've no time to start again but I won't lie to a
bitter end
Can we keep it down until it's back round
'Til it comes again?

Until it comes again, until it comes again

One more time to take the test to make it real
Or one more nail in this relationship make it impossible
to heal
On the good ship hope we sail
But the stars above say the wind will fail
Can we keep afloat until it's back round
Until it comes again?

Until it comes again, until it comes again
Until it comes again, until it comes again
