You're back from your fight
You're so sad yes I can see, (whoa)
But you mustn't lose your life
You're so tired yes I can feel, (whoa)

Please open the door, come in and rest,
Lay down all the stories you've saved for me
Please open the door, come in and rest
Here you will find your silence in me

Coz here you can, sleep in my arms
Here you can, dream in my mind
And if you sleep I will heal you
Yes I can heal, free your heart from the steel

One look into your eyes is enough
So sorry for what you saw out there, I'm so sorry
Your heart looks like a battlefield
So sorry for what you felt out here, I'm so sorry

Please open the door, come in and rest,
Lay down all the stories you've saved for me
Please open the door, come in and rest
Here you will find your silence in me

Coz here you can, sleep in my arms
Here you can, dream in my mind
And if you sleep I will heal you
Yes I can heal, free your heart from the steel
Yes I can heal, free your heart from the steel

Oh, and when you wake up you're not alone
So, don't be scared, you can feel my mind inside
When you wake up you're not alone
So don't be scared you can feel my mind inside

Sleep in my arms,
Here you can dream in my mind
Coz here you can, sleep in my arms
Here you can, dream in my mind
And if you sleep I will heal you
Yes I can heal, free your heart from the steel

Yes I can heal, free your heart from the steel
Yes I can heal, free your heart from the steel
Yes I can heal, free your heart from the steel
