

Down By Law "Best Friends"

Visit "[Best Friends](#)" on MotoLyrics.com

Wake up in time to get you call
Make sure this time we got it all

My best friend's always near me, cheers me, looking
after me
I need her and it's clear to see
My best friend's always near me
(Enjoy this as long as we should be)
With only her my life it could be

My friend knows why when I've lost track
We'll never cry, we'll always laugh
For a stop and go and I know we would
My friend's always by my side

And it's so nice to be near her
(Or just to come to hear her)

These days are looking ofently good
We made it and I know we would

My best friend's always near me, cheers me, looking
after me
I need her and it's clear to see
My best friend's always near me
(Enjoy this as long as we should be)
With only her my life it could be

Hold on to me, hold on to me
