

Down By Law **"Break The Walls"**

Visit "[Break The Walls](#)" on MotoLyrics.com

moved by a movie
medium is the message now
you're saying do the right thing
but then you turn around
you turn around and
do it wrong
you gotta break the walls
not build them up
break the walls
not build them up
break the walls
you've gotta break the walls
you're taking it way too far
now racists come
in all shapes and colors too
I'm so sick of all the bullshit
I'm sick of louis farrakhan
I'm sick of jesse helms

you gotta break the walls
not build them up
break the walls
not build them up
break the walls
you've gotta break the walls
you're taking it way too far
taking it way too fast
don't blame me or my friends
for the sins of the past
you want to make me abandon you
you want to make me abandon you
you want to make me abandon you
but I don't want to
but I don't want to
but I don't want to
