

## **Down By Law** **"Greenwich Mean Time"**

Visit "[Greenwich Mean Time](#)" on [MotoLyrics.com](http://MotoLyrics.com)

if you're scared on the streets  
tonight  
looking for a place to hide  
this is greenwich mean time  
too many people in washington  
playing power games they love to play  
they're all on greenwich mean time  
it's a world i don't want to know  
bowing how low can you go?  
hear about the people's problems  
they don't want to know  
and the businessman in london  
and the new york stock exchange  
they're all on greenwich mean time  
corporate pollution and greed  
in the driver's seat  
keeping greenwich mean time  
it's a world i don't want to know  
kill each other chasing gold  
hear about the world's problems  
they don't want to know  
i think no matter what time it is  
from tokyo to peru  
they're on greenwich mean time  
how's the world going to improve  
when the dollar continues to rule  
and it's always greenwich mean time  
it's a world i don't want to know  
kill each other chasing gold  
hear about the world's problems  
they don't want to know -- and for  
every artist out there, there's a  
hundred want to be a cop!
