

Down By Law **"Looking For Something"**

I'm looking for the truth
can't find one anywhere
just looking for the truth
I know there's one out there
looking for something . . .
looking for something
that I can believe in
looking for something . . .
looking for something
that I can believe in now
living in a daydream world
til the real one fades away
we never saw much in their world
and we're better off that way
looking for something . . .
looking for something

that we can believe in
looking for something . . .
looking for something
that we can believe in now
what are we doing here?
And if you ask me
what it is
what we're looking for
well I don't know
