Sitting in my room
Come to take me away
Me worry? What problems?

I've seen them come
And I've seen them go
And I feel happy when I don't know

I'm so glad, I'm seeing you
And I know that you will see it through
'Cause you love your music and I do too

Twenty years and you're not the same
They've all lost their faith
But I believe in change

And I'm so glad, I'm seeing you
And I know that you will see it through
'Cause you love your music and I do too

Maybe it's silly but here's a thank you song
From me to you and I'll keep listening
As long as you stay true
So here's a thank you song to you
