Lookout for your chances to try to get away
When voices scream inside your head
Just turn your amp up all the way
All the lights are black lights except when they turn
gray

I flicked the switch, I made my choice
I'm gonna change it all today
'Cause I know that I can take them on

Want to find a way out, just get me out of here
Climbing to the next rung, well this is my wonder year
Burning up inside in my body and my mind
After all this work I've decided this is my time

'Cause I know that I can take them on
And I'm not sorry that it's done
And I'm not sorry that I won

Now I've cried my last tear
'Cause this is my freaking year
