Some came from the east
Some came from the west
But was the right time for these four
To be one of the best

Gonna, gonna find a guitar man
Gonna, gonna be a rock and roll band
No way out when it's in your blood tonight

No way, no way, no way
No way, no way, no way out

We knocked down a hundred doors
We'll knock down a hundred more
Never doubted what we shouted
Now we've evened the score

Now you're looking around this town
Looking to get out but now I'm in for good
Guitar chords are ringing out
Yeah, we're in this thing for good

There's no way, no way, no way out
No way, no way, no way out
No way, no way, no way out
No way, no way, no way out

No way, no way, no way , no way
There's no way, no way, no way , no way
