I see you looking for a miracle
I see you wishin on a star
You take away your pain
You try to self (?)
Looking for something you can never find, never find,
never find
Searching...
Well, if you have to ask
Then you're never gonna know
I see you looking for a miracle again
I see you wishin upon another fallen star
You waste too many of your days
Your life will never change
Looking for something that you're chasing away
Searching...
Well, if you have to ask
Then you're never going to know
It's time *[repeat 3 times]*
