Screaming through souls today, they seem to  
Forget that. deaf ears sit high upon ignorant  
Heads & faces 40,000 living in poverty,  
In your very own community you're so  
Hung up on being american, hey man, that's  
Stolen soil under your shoes man. while right  
Around the block now, people are barely  
Alive day laborers and slaves to the white  
So now they're stealing jobs? what a bunch  
Of shit, what a fucking lie. I don't see you  
Breaking your back for your life quality of  
Life? they die by the knife and by the gun  
When a life is done, because one. no one is  
Illegal.
