

Down To Earth "Never Let Go"

Visit "[Never Let Go](#)" on MotoLyrics.com

Hey girls don't you know that pretty boys ain't in no more?
You better find you new love you can trust and respects
you like his mother
Hey fellas you better find a girl who loves you more
And not just go for your flow when you rush she'll be
out the door

You gotta be down for whatever
Stay close keep it tight stay together
Cheat on you play on you oh never
You need the one that'll make love last forever
They gotta love you no matter
You can stay slim or get fatter
Not the type that'll change with the weather
You need the one that'll make love last forever

My man ain't all that to you
But he loves me so (hey hey)
He treats me oh so good
And I'll never let him go (oh no)
He makes me feel like a queen
No one could love me more (hey hey)
Ya'll better find your true love
And never let him go

Hey girls you better find a man who understands
All you need and all he sees is ways to make you happy
Hey fellas you better find a girl who's much more than
A skinny waist, a pretty face cause everybody's had a
chance

You gotta be down for whatever
Stay close keep it tight stay together
Cheat on you play on you oh never
You need the one that'll make love last forever
They gotta love you no matter
You can stay slim or get fatter
Not the type that'll change with the weather
You need the one that'll make love last forever

My man ain't all that to you

But he loves me so (hey hey)
He treats me oh so good
And I'll never let him go (oh no)
He makes me feel like a queen
No one could love me more (hey hey)
Ya'll better find your true love
And never let him go

These days they got it all so twisted on how love should
be
Men go for looks and women want material things
What happened to true love
From the one you adore
Grab hold and never let go
(Oh no)

My man ain't all that to you
But he loves me so (hey hey)
He treats me oh so good
And I'll never let him go (oh no)
He makes me feel like a queen
No one could love me more (hey hey)
Ya'll better find your true love
And never let him go

(Hey hey, oh no, hey hey)
I'll never, I'll never, I'll never let you go, baby (
