You heard right 'cause we knew all about it.
You heard right and we said that's enough,
You're in love, don't just talk about it.
You and me on the phone in the evening.
You and me, we both know you're in love
That's enough, you're on vacation

And aren't you amazed at all?
You're in love.
[x2]

I was right that you wouldn't invite her
I was right, I've been right all along

It's your fault, Don't just talk about it
Drink your drink to forget all about her
Smoke some weed and pretend it's some fun
You're alone, we're in awe

And aren't you amazed at all?
You're in love
[x4]

You want more?
Give it another day.
You want another day yeah,
In the worst way
[x2]

And aren't you amazed at all?
You're in love
[x4]
