Competition, get 'em all
All I see are flower beds
I'm in the city flowing harder than a shower head
Shit, this is one big high five to our fans
They know it's time to win, check your hour hand
I got my city buzzing like a power plant
Set up your tents elsewhere, this is our camp
Huh, girl, pucker up no sour kiss
Ain't a sound out there that's better than ours is
Got the world waiting on it like a server
I'm not gonna change guys, I've lost the converter
Telling my girl all the fame shouldn't concern her
I do want cake but I've never been a deserter

Set; set that crown on the ground
Gimme that
Set; set that crown on the ground
Give it here
Set; set that crown on the ground
Put it down
Set; set that crown on the ground
Gimme that
Set; set that crown on the ground
Give it here
Set; set that crown on the ground
Keep running it right now, keep it going

Lights, camera, action
Hello, hi, what's happening?
Rapping so slick but we're finally gaining traction
Tyler, Bucky, Pat's in, Marty, Diggy, Kap's in
Band's on fire, I guess you could say we're matching
This is our homecoming, stand up cheers
We're here, the underdog rookies of the year

I promise no hocus pocus
I'm just focused on your ears
And we don't need a visual just to make it clear
'Cause you couldn't miss the live show even with a
blind fold
Watch critics' attitudes changing like time zones
Never switch gears; we are always on the grind so it's

ok to lie low
Just know that I'm going to trash every venue, leaving
everything behind
Amps smoking on the stage but we never pay the fine
Think you wanna see us then go and join the line
Full of people trying to look at Down with Webster in our
prime

Set; set that crown on the ground
Gimme that
Set; set that crown on the ground
Give it here
Set; set that crown on the ground
Put it down
Set; set that crown on the ground
Gimme that
Set; set that crown on the ground
Give it here
Set; set that crown on the ground
Put it down, put it down

Set; set that crown on the ground, uh
Set; set that crown on the ground
Fuck your speakers
Set; set that crown on the ground
Fuck your ears, man that's what it sounds like
Set; set that crown on the ground
Set; set that crown on the ground
Set; set that crown on the ground
1986!
Set; set that crown on the ground
