You didn't grow up with us  
Never been on the bus with us  
With one verse I'll let you all know exactly what's up  
with us  
7, 6, 5, 4, 3, 2, 1 with us  
We're coming through your city and you'll never get  
enough of us  
I feel like I know every wake boarder and skate boarder  
Cross every province line, every state boarder  
Every kid who drinks liquor  
Every kid who throws up  
Every kid who heard about the Webster show and  
showed up  
But now you got to jam with us, so you're probably a  
fan of us  
With one verse I'll let you all know exactly the plan with  
us  
Come on stand with us  
Yeah, throw up your hands with us  
We're coming through your city 'cause I know you've  
been demanding us

They told me star maps will take you to the stars  
Just because you're driven that don't mean you'll get  
the car  
Because you're going fast that don't mean you go far  
If you pitch in that don't mean you fit the chart, no

It's all y'all that set it off  
Light me up and I'm taking off (2x)

We're taking, we're taking off  
We're taking, we're taking off  
We're taking, we're taking off on all of you (2x)

And if you wanna you can ride on my rocket ship  
Ride on my rocket ship, hey, hey, hey (2x)

You didn't grow up with us  
Never been on the bus with us  
With one verse I'll let you all know exactly what's up  
with us

Star maps won't take you to the stars  
In fact, eh yo, X marks the spot but there's no key on  
the map  
But still seems like I know every back packer,  
And drunk rapper, punk rock kid, DJ to track master  
Girls who act proper, chicks who act nuts  
Seems like the whole world wanna know about us  
And you, we are rocking you, when we rocking you

Taking off like a rocket ship when we set it off  
When you people taking off, in a word set it off  
When you people taking off on the world

They told me star maps will take you to the stars  
Just because you're driven that don't mean you'll get  
the car  
Because you're going fast that don't mean you'll go far  
If you pitch in that don't mean you fit the chart, no

It's all y'all that set it off  
Light me up and I'm taking off (2x)

We're taking, we're taking off  
We're taking, we're taking off  
We're taking, we're taking off on all of you (2x)

And if you wanna you can ride on my rocket ship  
Ride on my rocket ship, hey, hey, hey (2x)

Well you didn't get down with us  
Never cooked up a sound with us  
Never stepped to the mound  
So you'll hold up the crown with us  
Fans of the band let the jam hit the stamina  
Heads in the clouds but gravity's always grounded us  
I never was asleep but I always had a dream  
And I never had a beeper; I'm always on the scene  
Don't need to go and dig it deeper, 'cause you know  
just what I mean  
Nobody's gonna teach you, gotta learn for the team  
Now you know I'm gonna set this bitch off  
I know you only hating 'cause I make you pissed off  
So keep your little star maps, I know you're just talk  
Keep your little star maps; you know you're still lost

Hey, hey, hey (4x)  
And if you wanna you can ride on my rocket ship  
Ride on my rocket ship, hey, hey, hey (2x)

These star maps won't take you to the stars  
Just because you're driven that don't mean you'll get

the car

Because you're going fast that don't mean you'll go far

If you pitch in that don't mean you fit the chart, no
