Staring at this tragedy  
So Misguided, yet surrendering  
Inspired and Driven  
Questioning this, the obvious  
Hollow Fall into this world  
Bridged a gap of destiny  
Doesn't seem it could be real  
I believe! I believe!  
I am Fallen  
I am Fallen  
Searching for an answer  
So mistaken, yet forgiven  
I am dirty  
Filth of all the sins I've come to know  
Straying always  
Endless seeking  
For our guidance  
I'm Alive!  
I am Fallen  
I am Fallen  
Grip this soundly  
I have wanted for you  
To hold my essence  
For you  
I know, I am  
Into, and out of this  
I am, I am, fallen now  
And Now I see this side  
Raise my eyes but forget why  
I don't know if I'll ever have  
All I had given up. Instead  
I am, I am, I am  
I am Fallen  
I am Fallen
