I'm learning to stand
The more that I fall down
It's the law of inversion
And it's all turned around

And I'm staggered by
The clash inside my soul
So purposed for good
But inclined for evil

It's justice and mercy, the old dichonemies
All along the front lines of my heart in both doubt and
belief
The sinner, and the saint, the old arch enemies
All at war in me
All at war in me

I was born depraved
But created for the Divine
With death in my bones
In my heart I turned alive

I'd love for Eden
But I'd kill for Rome
I'm native in a land
That is not my home

It's justice and mercy, the old dichonemies
All along the front line of my heart in both doubt and
belief

The sinner, and the saint, the old arch enemies
All at war in me
All at war in me

You are the beginning
And You are the end
Into Your great reversal
I am born again

A beautiful redemption,
You leverage even sin,

And me, Your final victory
I know You'll win

(Into light from the shadows
Into light from the grave
Into love
Into love)

It's justice and mercy, the old dichonemies
All along the front lines of my heart in both doubt and
belief
The sinner, and the saint, the old arch enemies,
All at war in me
All at war in me
